My name is Haytham and this is my house. My house is quite big. It has got two floors - a ground floor and a first floor. It has also got an attic and a basement بدروم.

On the ground floor there is a hall, a kitchen, a living room, a big dining room and a toilet.

On the first floor there are three bedrooms, one bathroom and a big corridor. My bedroom is between my parents' bedroom and the bathroom. My sister's bedroom is in front of mine.

I love my bedroom, but I also like the attic. In the attic, I keep some of my books and my old toys. I like to spend my time there because it is large and there is a big sofa there where I sometimes take a nap.

In the basement, we keep the washing machine, the drying machine and old things. At the back of the house, there is also the garage, where my parents park the family car, and a lovely garden, with many green spaces, flowers, two swings and a swimming pool. I love my house so much! It's very comfortable.

Egyptian heroes!(1)

The Egyptian handball team⁽²⁾ are heroes! They won the handball Africa Cup of Nations⁽³⁾ in Tunisia in 2020. They won the final⁽⁴⁾ against⁽⁵⁾ Tunisia 27-23. That means they are the best team in Africa!

This is not the first time Egypt's handball team played in a final. In 2019, the junior team⁽⁶⁾ won

the under-19 **World Cup**⁽⁷⁾ Final 32-28 against Germany. They were the first team from Africa to win it. In 2018, the senior team⁽⁸⁾ were also in the final of the Africa Cup of Nations, but **lost**⁽⁹⁾ the final against Tunisia.

Now, lots of people in Egypt love the sport. Let's hope⁽¹⁰⁾ the Egyptian team can win competitions⁽¹¹⁾ again!

Yasser:

I didn't use to know very much about⁽¹⁾ my family history. Then, last week, I did a school project⁽²⁾ about someone in my family so I did some research and I found out⁽³⁾ some really interesting things about my great grandfather.

I knew he used to be a doctor but I didn't know he worked for a charity⁽⁴⁾! My great grandfather used to live in⁽⁵⁾ the countryside and he worked as

a volunteer doctor for the Red Crescent when there was a natural disaster or a health emergency. For example (6), when there was an earthquake, my great grandfather went to help. The work was difficult and sometimes scary. He also used to look after (7) people who didn't have much money. I feel very proud of (8) him.

on Lesson 3 WB page 88

We should all be proud of Magdy Yacoub. He was born in 1935 in Bilbeis, but the family used to travel to many places because his father was an important doctor. Magdy also became a doctor. Before he stopped working⁽²⁾ in 2001, he used to work in a special hospital in London. At this hospital, Magdy used to help to give people new hearts for the first time(3). Before the 1980s, people with heart problems often died. In 2009, Magdy Yacoub started a charity for (4) ill children in Aswan. Very ill children didn't use to live long lives, but many ill children can now live healthy lives.

Ancient Egyptian doctors

We know how Ancient Egyptian doctors helped their patients(1) because they wrote down their ideas (2) thousands of years ago.

The body

Ancient Egyptians doctors understood that the heart pumps (3) blood (4) around the body.

However, they used to think that the heart also pumped air (5) to our lungs! 6 They were also the first people to understand some of the things the brain (7) does, but they did not know how important it was.

to stop infections⁽¹⁰⁾. We still use some of these plants today. They also knew how to mend(11) broken bones(12) and sew(13) cuts⁽¹⁴⁾, but they didn't use to know everything. For example, they used to make medicine from animal eyes. They used to think that an animal's eye helped people who could not see!

Life in Ancient Egypt⁽¹⁾ was different to today. Poor children⁽²⁾ didn't use to go to school, but children from rich families used to start school when they were about seven. When they were at home, children used to enjoy playing games. When older parents died, they used to leave their houses to the sons (3). However, they used

to leave things inside the house, such as jewellery(4) and furniture(5), to the daughters (6).

Dalia: Hi Dad, I'm doing a school project about our family history. Can I ask you some questions?

Dad : Of course, what do you want to know?

Dalia: Where did you live when you were

a child? Was it in Luxor?

Dad : No, I moved to Luxor when I was a teenager. When I was a child, I used to live in a village⁽²⁾ outside the city.

Dalia: Oh, I see. Who did you live with?

Dad : I lived with my mum, dad, my sisters and also my grandparents⁽³⁾.
We used to live in my grandparents' house.

Dalia: What time did you usually get up?

Dad: Very early! On a school day, I got up at about 4.30 am!

Dalia: Really? Why did you get up so early?

Dad : Because my school was very far from where we lived. It took me

an hour to get there.

Dalia: How did you travel to school?

Dad: I went on my bike. We didn't have a car then.

Dalia: What subjects did and didn't you like at school?

Dad: My favourite subject was maths, but I didn't like history.

Life in Antarctica⁽¹⁾

Why did you come to work in Antarctica?

I used to work as a scientist at a university. Then I saw a job advertisement⁽²⁾ for scientists to work in Antarctica for a year and I thought it looked interesting. What is daily life like in Antarctica?

Some things are the same as home! We usually get up at about 7 am. We have breakfast and do some exercise. Then we start work at 9 am and finish at 5 pm. We eat dinner together and then watch TV, play some games or read.

What is different about life in Antarctica?

At the moment it is winter⁽³⁾ so it is dark⁽⁴⁾ all day and night! The weather is very cold and windy⁽⁵⁾. Only 20 people are working here now. I miss⁽⁶⁾ my friends and family, but it is an amazing experience⁽⁷⁾!

In 1982, some friends were in a restaurant in California, USA. They wanted to make the world better¹⁴. One of the friends, Anne Herbert, wrote down her idea: Practise random acts of kindness.

A random act of kindness is a kind thing that you do for someone, for no reason (7). You can do random acts of kindness for the people you know: for example, buy flowers for your mother. You can also be kind to strangers: for example, give your seat to 9 someone on a bus. Now, February 17th is Random Acts of Kindness

Day. All over the world 101, people do kind things for 111 the day: not because they have to, but because they want to see a smile on 12 a person's face. Isn't that a fantastic idea?

جمل وضمائر الوصل Relative clauses / pronouns

Formation التكوين

◄ جمل الوصل هــى الجملة التى تحتوى على إحــدى ضمائر الوصل (who / that / which / where)
والتى تستخدم لتوضيح ما نتحدث عنه سواء كان (شخص، شئ أو مكان) :

• تستخدم هذه الضمائر بمعنى (الذي / التي) مع الأشخاص (العاقل) : s the teacher who / that helped me the most when

who / that (الذي / التي / الذبن)

Mr Zaki is the teacher who / that helped me the most when I started at this school.

 بأتى بعدها فعل عندما تحل محل الفاعل العاقل وبأتى بعدها جملة عندما تحل محل المفعول العاقل.

• تستخدم هذه الضمائر بمعنى (الذي / التي) مع غير العاقل (الجماد والحيوان) :

which / that (الذي/ التي/ الذين) يأتى بعدها فعل عندما تحل محل الفاعل الغير عاقل ويأتى بعدها جملة عندما تحل محل المفعول الغير عاقل.

The present that/which I bought for my grandmother is in my bag.

where حيث (للمكان) • بستخدم ضمير الوصل (where) بمعنى (حيث) مع الأماكن :

• بسبقها مكان وبأني بعدها جملة.

Alexandria is the city where both my big sisters are studying.

where =

نستخدم (where) مع المكان ولا بأتى بعدها حرف جر، ولاحظ الآتى :

which + حرف جر

I don't want to leave the house where I was born.

= I don't want to leave the house in which I was born. which + حرف جر + I don't want to leave the house which I was born in.

• لاحظ: تستخدم (which) فقط وليس (where) عند وصف المكان:

This is the villa which we bought last month.

(Not: Where we bought ...)

Random Acts of Kindness Project

· Our class decided to try to do one act of kindness every day for three days. This is what I did.

First, on Monday, I bought my grandmother some of her favourite cakes at the baker's on the way home from school. She was surprised, but very happy! After that, on Tuesday, I let some younger students go into the canteen(1) in front of me. Finally, on Wednesday, I took a sandwich and a cold drink to the old man who often

sits on our street corner⁽²⁾. He gave me a big smile⁽³⁾. In my opinion⁽⁴⁾, doing random acts of kindness is fantastic. I don't want to stop!

A changing world(1)

Today's presentation(2) is about climate change⁽³⁾. This means our planet⁽⁴⁾ is changing⁽⁵⁾. Here are two places that are different now.

Australia

In this line graph⁽⁶⁾, the x-axis⁽⁷⁾ shows the year and the y-axis⁽⁸⁾ shows the change in temperature⁽⁹⁾. You can see that the climate in Australia is becoming hotter⁽¹⁰⁾ and drier⁽¹¹⁾. More droughts⁽¹²⁾ mean worse fires⁽¹³⁾ than ever before. Climate change means (1) عالم متغير

Australia is a more dangerous place to live.

Mount Kilimanjaro(14)

This bar chart (15) shows that warmer (16) and drier weather is melting(17) the ice on top of Africa's highest mountain, Mount Kilimanjaro. You can see that the area⁽¹⁸⁾ of ice is much smaller than 140 years ago. The good news is that the ice is not melting as fast as before. However, the ice is continuing to get smaller.

The North Hotel

The North Hotel is located on a lovely beach⁽¹⁾ and every year, the hotel is visited by more and more⁽²⁾ tourists. However, the hotel owner said that last year, there were not as many turtles on the beach as usual⁽³⁾.

As a result ⁴, the hotel is helping the turtles. Parts of the beach are **closed** to ⁵ tourists so that turtles are safe. And at night, when the turtles leave their eggs in the sand, the hotel workers stop any tourists from visiting the beach.

The South Hotel

The South Hotel is near the coast and every year, it takes tourists scuba diving. However, workers on the boats believe that coral reefs are often damaged by scuba divers. The hotel is now working with a charity that helps the coral reefs. Now some of the money that tourists pay for 60 the boat trips is used to help protect the coral reefs.

The East Hotel

The East Hotel is very new. Only green energy⁽⁷⁾ from the sun and wind⁽⁸⁾ is used at the hotel. The hotel also produces⁽⁹⁾ very little rubbish: most of it is recycled. All the fruit and vegetables at the hotel restaurant are grown on local farms⁽¹⁰⁾, and the people working at the hotel are all from the local villages⁽¹¹⁾.

Girl:

Our school project this week is to think about (1) rubbish at school. In our school, we have a rubbish bin in every room. The students are very good and they always put their rubbish in the bins. At the moment(2), the rubbish is collected every week and goes to a special place in the city.

But when we look inside the bins, we can see that most of the rubbish is made of paper or plastic. We can recycle a lot of this rubbish. So now, before students put things in the rubbish bin, we ask them to think: can I recycle that? If the answer is yes, they can now put it in a special bin so it can be used again.

Last weekend, ten students from Class 7 helped clean up the part of the riverbank near the city centre. The students collected 15 bags of rubbish.

Their teacher, Mr Hassan, said the students were sad to find so much rubbish.

"There were lots of plastic bags and bottles", he said.

"We even found an old shoe!"

One of the students said, "It was great to clean the riverbank, but we need to teach people to be more careful with (2) their rubbish. Rubbish in the river damages the wildlife".

What is Global Recycling Day?

Global Recycling Day is an event in March. It aims to remind people of the importance of recycling things including paper, plastic,

(1) اليوم العالمي لإعادة تدوير النفايات (2) حدث (3) يهدف إلى (4) يُذكر (5) أهمية (6) متضمنًا / مشتملًا على

metal, water and even gas⁽⁷⁾ and oil⁽⁸⁾. It was started in 2018 and there are now recycling events in many different countries.

So why is recycling so important?

In 2018, people produced about 11 billion⁽⁹⁾ tonnes⁽¹⁰⁾ of rubbish around the world. At the moment, a lot of our rubbish is burned and this can lead to⁽¹¹⁾ climate change.

What are countries doing about the problem?

No country recycles as much rubbish as Germany: it recycles more than (12) 56% of it. In 1991, it recycled about 3%. South Korea recycles more than 53% of its rubbish. Coloured plastic bottles and some plastic cups are not used any more (13), because you cannot recycle them. Most countries hope to (14) recycle more in the future.

A trip to Luxor Museum

By Hamid

Last week, I went to Luxor Museum with my class. The museum is further from my home than our school. We were travelling for a long time! We arrived at 10.30 am.

As we were walking into the museum, we saw some big statues⁽¹⁾. My favourite was the statue of Ramses II. There were also rings and necklaces⁽²⁾ that once belonged to⁽³⁾ rich Egyptian families. There were a lot of small coins from the same time, too.

The museum has some very old objects. My favourite objects were the metal bowls⁽⁴⁾ from the fourteenth century⁽⁵⁾. The oldest objects in the museum were the tools. Some were made of metal and some were made of stone.

While I was reading the information, my friend found a tool that was 10.000 years old.

Narrator:

This is a chair from Ancient Egypt, and it is more than four thousand years old. Like many chairs today, it is made from wood. In Ancient Egypt, only the richest people had wooden furniture because it was very expensive.

Today, most people have wooden furniture and it is not usually very expensive.

We all sit on chairs at home. But in Ancient Egypt, only very rich people used chairs.
Other people sat on the floor.

Here is another chair from Ancient Egypt. It is made from wood, but it is covered in gold. Can you see the lions' heads? It belonged to the Pharaoh, Tutankhamun. You can see it in the Museum of Egyptian Antiquities in Cairo.

We believe that the Ancient Egyptians made the very first tables. This table is more than 3,000 years old.

Today, tables are usually made from wood.
But in Ancient Egypt, they were sometimes made from stone. They used tables for many things, such as writing, eating and playing games. The Ancient Egyptians also used mirrors. Today, mirrors are usually made from glass. This mirror is more than 3,000 years old and it is made from metal.

Do you look at yourself in a mirror when you leave home?

What other furniture do you have at home?

on Lesson 4 SB page 18

Cities are very busy places. Lots of people live and work in them and there is always lots of traffic and noise. This makes some people feel worried and unhappy. When people feel like this, it is a good idea to go outside and experience nature.

In Cairo, many people like going to the Al Azhar Park. Here, they walk slowly around the gardens and look at the many fountains, palm trees, plants and flowers. This makes them calm in the middle of a very big city.

These people are meeting friends and family, and having picnics outside.

In other parts of Egypt, people can experience nature in many different ways. This is Ahmed and he lives in Sharm El-Sheikh. He is a tourist guide and always works hard. Here he is speaking on the phone.

Ahmed always feels happy when he visits the Ras Mohammed Nature Reserve. This is a national park in the Sinai Peninsula.

Today, he is visiting the park to go scuba diving in the Red Sea. He feels relaxed when he sees all the things that live under the water, such as the fish and the coral. When you want to be outside, there are many beautiful places on the Nile.

This is Lamia and she lives in Aswan. Today, she is sailing happily on the river with her father on a felucca. She likes doing this because she likes the different birds that she can see, like herons, geese and vultures.

Some people, however, like visiting the deserts of Egypt when they want to be outside.

People like walking in the deserts to see the sand dunes because it is very quiet.

And these people are flying slowly above the desert in a hot air balloon.

We all feel good when we go outside. Where do you like to go?

on Lesson 5 58 page 29

There are some great jobs that you can do. Many great jobs do something to help other people.

Many people think that being a firefighter is a great job because they save people's lives. Sometimes they have to do dangerous things to save people.

It is also a great job to be a doctor or nurse. They save the lives of people every day. Many people think they are heroes!

This is a famous doctor called Professor Rashad Barsoum. He was born in Asyut in 1941.

Today, he is one of the most important kidney doctors in the world.

He also teaches people to become doctors at Cairo University. One day these people will save lives and be new heroes.

A lot of people think teachers are heroes.

They teach us to read, to write and to do many other things.

Which job would you like to do? Will you be a hero?

Narrator:

These people are visiting the ancient site of Karnak, near Luxor. People were also visiting Karnak thousands of years ago. There are lots of different ruins at Karnak. It is one of the most important historic places in the world. You can see many awesome things, such as ancient statues and temples.

This is an obelisk. This obelisk is nearly thirty metres tall and it has hieroglyphics on it.

There is even a lake at Karnak called the Sacred Lake. Important people came here to wash themselves.

This is the amazing Temple of Amun. It was one of the first buildings to be built at Karnak around four thousand years ago. It has huge columns.

(_) (_)

In the past, people came to Karnak from all over Egypt. More than two thousand people could be in the Temple of Amun at the same time.

Today, people visit Karnak from all over the world. They must walk past lots of statues of sphinx when they enter the Temple of Amun.

Visitors mustn't enter some parts of Karnak. This is because they are very old and protected. These are the ruins of the Temple of Montu. It is more than three thousand years old.

We know a lot about the history of the world because of historic places like Karnak.

on Lesson 5 SB page 51

There are many charities in Egypt that can help people. The Alhassan Foundation helps disabled people. They give wheelchairs to people who cannot walk. The charity helps disabled people to find jobs. It also teaches people about how disabled people have to live.

Another charity is the Egyptian Food Bank which gives food to poor people and to people who have lost their jobs.

Every year, people donate more than 100 million Egyptian pounds to this charity. They don't have to do this, but they do it because they want to help. People can also donate food, such as pasta, rice, meat and fruit, or they can take boxes of food to people in their community.

The Red Crescent is one of the most important charities in the world.

A lot of doctors and nurses volunteer for this charity. They treat ill and injured people when there is a natural disaster.

The Red Crescent also helps when the weather is very bad. In 2020, there was a lot of rain in some parts of the country. Too much water caused a lot of damage and many people needed help. The Red Crescent took medicine and food to these people. Everybody should donate to a charity if they can or perhaps you could volunteer to help.

on Lesson 3 SB page 59

Egypt has a dry climate. This means there isn't much rain. Every year, about 17 centimetres of rain falls in the north of the country.

It is drier in the south and in the deserts. There is only about 0.25 centimetres of rain in Aswan every year.

Egypt is also hot. It's sometimes 40 centigrade or hotter in Cairo. In other places, the temperature is higher than that. In Luxor it can be 44 centigrade ... and the desert is even hotter.

The people and animals that live in the desert need to protect themselves from the sun.

This man is wearing a jellabiya. He is kept cool during the day by this traditional item of clothing.

And this is a fennec fox. Its large ears help to keep it cool.

It can be colder in the desert when the sun starts to go down. That's why you only see some animals, like this caracal, in the evening when it isn't as hot as in the afternoon.

But, like in many other countries around the world, Egypt's climate is changing. It's hotter today than it was sixty years ago. And the rain is heavier than it used to be. Houses and buildings are damaged by these heavy rains.

We need to work together to protect the environment, our climate and our world.

Read the following, then answer the questions:

My mother is an important nurse. She's called Mrs Karima Mohamed.

I know that her life used to be difficult. She studied to be a nurse at Ain Shams
University and used to work as a nurse, too, sometimes at night, to learn
as she could. She then got a job at a big hospital in Cairo. She continued to
work hard, but didn't stop her studies, and soon she became one of the most

Important nurses in Cairo. Now, she works in a big hospital in New Cairo. In 2020, many people became ill and she worked every day for many weeks. It was difficult, but heroic work because most of them got better. She is also a manager and she helps to teach younger nurses. I think she is a hero because she studied and worked very hard to get an important job and now she helps people every day. She thinks that education is very important.

Eleven-year-old Dina visited a zoo last year. There was a man with a hat watching some gorillas; gorillas are big and strong animals. When the wind blew, the man's hat fell down in front of the gorilla's cage. The man climbed down to get it. One of the gorillas put its hand outside the cage to get his hat, too. But the gorilla didn't take the hat. It caught the man by his arm. The man was very frightened. When Dina saw this, she climbed down to help. She was carrying a bag and she hit the gorilla on its head.

When Dina did this, the gorilla dropped the man's arm and the man was safe again. The man thanked Dina and gave her chocolate which he bought for his daughter.

We know how Ancient Egyptian doctors helped their patients because they wrote down their ideas thousands of years ago. Ancient Egyptians doctors understood that the heart pumps blood around the body. However, they used to think that the heart also pumps air to our lungs! They were also the first people to understand some of the things the brain does, but they did not know how important it was. Egypt announced a plan to build 40 nature reserves to help protect the natural resources and the culture and history of those areas.
